ENVIRONMENTAL CONSERVATION AND SUSTAINABILITY

6 TO 10 MAY 2019

SINGAPORE COOPERATION PROGRAMME

SINGAPORE COOPERATION PROGRAMME TRAINING AWARD

Singapore Cooperation Programme

Singapore has provided technical assistance to other developing countries since the 1960s. As a country whose only resource is its people, Singapore believes that human resource development is vital for economic and social progress. Singapore itself has benefited from training provided by other countries and international organisations.

In 1992, the Singapore Cooperation Programme (SCP) was established to bring the various technical assistance programs offered by Singapore together under one framework. Through the SCP, the range and number of programs were increased to share Singapore's development experience with other developing countries.

To date, Singapore has sponsored courses and study visits for over 125,000 officials from more than 170 countries and territories. The SCP is managed by the Technical Cooperation Directorate of the Singapore Ministry of Foreign Affairs
